the girl who had a flight to London and after the sessions she was able to enjoy her **trip**, and she completely forgot that she had had the sprain.

the woman who had a sprain every time she turned the **mattress** and she came time after time.

the young man who had come many times and as soon as he turned the **corner** onto the street he already felt improvement.

people of the Valley who recommend to strangers to come and visit me when they are in any **bus** or train traveling to the valley.

the **doctor** who told people to visit me before going to the Hospital in Campdevàrol.

an Easter when **Josep Guardiola** came into our busy bakery and a few days later when after having treated him, he gave me a bunch of flowers and some tickets for the "FC Barcelona Stadium".

the man who had a prostate operation and had **bladder** problems was treated and cured
